Typography: "Helvetica Neue LT Arabic" (fallback: Helvetica Neue / Helvetica / Arial) — chosen because core marketing copy is authored in Arabic (RTL) alongside English/German.

Voice & Languages

The site toggles **English / German** for UI chrome — professional, plain, B2B-service tone ("reliable," "practical," "clear communication," "trust"). Notably, the **homepage hero** and **"why choose us" storytelling are written in Arabic (RTL)** — the brand's emotional register is Arabic-first even though the target buyer market is European.

"نجعل منتجات العالم أقرب إليكم وكأنكم في وطنكم"

— "We bring the world's products closer to you, as if you were home" (main hero)

"طرق موثوقة من الشرق إلى أوروبا"

— "Reliable routes from the East to Europe" (logistics hero)

"شريككم في تجارة المواد الغذائية"

— "Your partner in food trading" ("why choose us" heading)
